The Company

- Teletop Technology locates in Shenzhen and specializes in developing and manufacturing accessories for Two way radio communications. Our major products include bone conduction headsets, speaker microphone, wireless earpiece, throat control kits, ear hook earpiece, surveillance kits, batteries, chargers and etc.
- As a professional manufacturer, Teletop is committed to provide industry leading high quality products to our global customers ever since 2008.
- Having many years of OEM experiences, with the help of our strong R&D team and QC team, we have the capability to fully satisfy our customers' different requirements. And every stage of our production is managed according to IPQC, so as that we are able to guarantee high quality products and service to our customers.
- Quality is our forever pursuit! The products we provided have already obtained CCC, CE, FCC, RoHS certifications, which are in accordance with the most stringent standards of China, America and Europe.
- We focus on fulfilling customers' needs and exceeding your expectations. And we are committed to create maximized profit for our partners. From product quality, production plan, procurement, logistics to maintenance and other aspects, we strive to provide a full range of services for you!

NC101 Noise Cancelling Headset

1. World-Leading noise reduction technology, can reduce 90% of background noise.
2. Earmuffs and head wear are accord with Ergonomic design, headphones inside filling sponge holster design, more comfortable and have no oppressive to wear .
3. Neoteric round, smooth appearance design, leading the fashion trend.
4. Built-in controller, can be wire control music playback operation and can be connected the smart phone ,you can answer the telephone easily when you enjoy the music.
5. AAA battery capacity can meet you 200 hours working time.

BN101 Bone conduction headsets

1. Temple conduction speaker headset suitable for very noisy environment.
2. Receives audio via facial bones.
3. Robust on line PTT design, with big revolving clips.
4. PU cable with Kevlar and compliance RoHS.

NC102 Noise Cancelling Headset

1. Noise reduction design which can reduce background noise effectively.
2. Convenient to carry with portable folding design.
3. Special 6pin connector for PTT, can connect any connector for different band radios.
4. Suitable for users work under high noise environment.

BN102 Bone conduction headsets with robust PTT

1. Temple conduction speaker headset suitable for very noisy environment.
2. Receives audio via facial bones.
3. Quick release Nexus connector.
4. Robust on line PTT design, with big revolving clips.
5. PU cable with Kevlar and compliance RoHS.

BN106 Facial bone conduction headset

1. Receive and transmit audio via facial bone.
2. Quick release Nexus connector.
3. Robust PTT design.
4. PU cable with Kevlar and compliance RoHS.
5. Waterproof level: Ip55.
6. Suitable for police, fire fighter, military and mission critical.

SK101 Skull Mic&Bone conduction headsets with robust PTT

1. Skull microphone and temple speaker headset.
2. Design with skull microphone & bone headset suitable for very noisy environment.
3. Especially for firefighter, military, policeman.
4. Quick release Nexus connector.
5. Bone conduction microphone unit easy to set up helmet and no need any tooling.

BN108 Bone conduction headsets with VOX/PTT function

1. New structure volume control design.
2. Robust PTT design.
3. VOX performance can be realized in terrible environment.
4. PU cable with Kevlar more firm and strong.
5. Suitable for police, fire fighter, military and mission critical.

SK102 Skull Microphone with robust PTT

1. Design with bone vibration microphone & single speaker suitable for very noisy environment.
2. Especially for firefighter, military, policeman.
3. Quick release Nexus connector.
4. Bone conduction microphone unit easy to set up helmet and no need any tooling.
5. Robust PTT design, with big revolving clips.

TK316 Combined Audio Solution

WT108 Wireless speakerµphone

1. Wireless speaker microphone with Bluetooth technology.
2. Quick charge to ensure 10 hours working time.
3. Digital volume control.
4. Offer high quality volume and fashion appearance.

Specification:

- Operation range: 10 Meters
- Continuous working time: 10 hours
- Standby time: 200 hours
- Charging time: 3 hours

WT107 Wireless Products

1. Wireless headset with Bluetooth technology.
2. Quick charge to ensure 10 hours working time.
3. Digital volume control.

Specification:

- Operation range: 10 Meters
- Continuous working time: 10 hours
- Standby time: 200 hours
- Charging time: 3 hours

WT102

WT105

SM101 speaker microphone

1. Remote speaker microphone with 5.5mm PU cable.
2. With A5 replace stainless steel clip on the back.
3. Solid, flexible, strong and durable cable.

SM105 Speaker microphone

1. Comfortable holding with a stainless clip on the back.
2. With solid, strong and durable cable.
3. Robust PTT design, with big revolving clips.

SM102 Speaker Microphone

1. High impact housing.
2. Strong rotatable metal clip has eight positions.
3. Attached 3.5mm earphone jack on microphone.
4. High quality speaker and microphone provide clear audio communication.

SM107 Speaker microphone

1. Small and light speaker microphone with waterproof level Ip67.
2. With a 360-degree revolving long back clip to ensure wearing more strong.
3. Use new technology of cavity design to make communication more clear.
4. Can increase emergency push button according to radio.
5. Solid, strong and durable cable with Kevlar and also compliance with RoHS.

ONE-WIRE EARPIECE

1. Double-line PTT design.
2. Changeable for different SPK.
3. PU cable with Kevlar and compliance RoHS.
4. waterproof level IP54.

TK113

ONE-WIRE EARPIECE

1. One-line PTT design.
2. Changeable for different SPK.
3. PU cable with Kevlar and compliance RoHS.
4. waterproof level IP54.

EH108

TK204 With VOX/PTT Function

1. Support VOX/PTT switch function.
2. High quality acoustic tube convey voice make you have better sense of hearing.
3. PU cable compliance with RoHS contain high intensity Kevlar is very firm and durable.

TR101 Throat control microphone earpiece

1. Heavy duty throat control kit.
2. Providing private, discreet communication, with a convenient and larger waterproof PTT.
3. Picking up audio directly from vocal cord vibrations which blocks background noise perfectly.
4. PU cable with Kevlar and compliant with RoHS.
5. Suitable for police, military and mission critical.

TK108 Two-wire Acoustic Tube Earpiece

1. Two-wire acoustic tube earpiece.
2. High quality acoustic tube convey voice make you have better sense of hearing.
3. The unite provides and discreet communication.

TR102 Throat control microphone earpiece

1. Microphone for two way radio transceiver.
2. Providing private, discreet communication.
3. With a convenient finger PTT.
4. Attached against user's throat, picking up audio directly from vocal cord vibrations which blocks background noise perfectly.

NK102 Neckband headset

1. On-line PTT design
2. PU cable compliant with ROHS
3. Portable headset design with boom microphone
4. Available for different brand two-way radio.
4. PU cable with Kevlar and compliance RoHS.

HK101 Motorcycle headset

1. Noisy canceling boom microphone is excellent.
2. With coiled PU cable for retractable use.
3. Dual speakers for increased sound and clarity, fit into the ear well of all headsets.
4. Metal connector with screws.
5. PTT buttons (Included) secures to handlebars.
6. Works for open face helmet design.

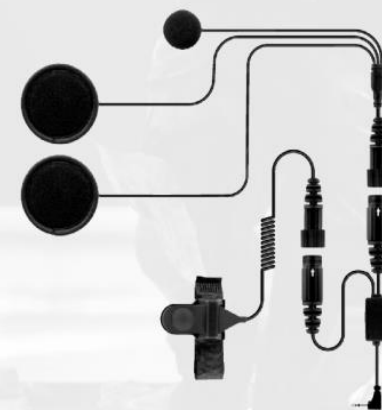

NK103 Neckband headset

1. With super thin finger PTT design, easy to fix on the finger or other device, more convenient for use.
2. Light and portable back headset design, more comfortable for wear.
3. PU cable compliance with RoHS contain high intensity Kevlar is very firm and durable.

HK102 Motorcycle headset

1. With coiled PU cable for retractable use.
2. Dual speakers for increased sound and clarity, fit into the ear well of all headsets.
3. Metal connector with screws.
4. PTT buttons (Included) secures to handlebars.
5. Works for full face helmet design.
